Due to a continuous research and development, some procedures, specification and parts may be changed. Periodic revision may be made to this publication and mailed automatically to distributors.

It is recommended that customers contact their distributor or dealer for information on the latest revision.

The satisfactory ordering and receiving of parts are dependent largely upon the proper use of available information. To avoid errors in ordering, the following procedures should be followed:

1. Give the part number, catalog name and quantity of parts needed.

- Give the model number. The chassis serial number plate is located on the engine hood or on the dashboard near the operator seat.
- 3. When ordering parts for the engine, be sure to give the serial number of such unit.
- 4. Give the desired destination and method of shipment along with any special invoicing instruction.

For full understand	For full understanding, the parts book is written as follows:
Fig. No.	Figure numbers are not in numerical order in both SECTIONS.
	Fig. Nos. of drawings in both SECIIONS are made independently each other.
Description	Any of assembly parts or components is marked with (.) fixed to
	When a part with (.) is a component part, it has () prefixed to
	its part name.
Q'ty	"Q'ty" indicates the quantity of a part required per machine.
	In case of a component part of an assembly, however, it indicates
	the quantity of the part required per assembly.
Serial No.	Serial No. indicates the Engine or Machine Serial No.

Codes

☆

Codes and letters use in the columns of the Part Name and Part Number are as follows:

- The part which is listed in the line above and does not have a mark can be substituted for this part. (One-way substitution)
- Part is not supplied as an independent part, but the assembly containing the part is.
- KIT The part is contained in a kit. please refer to the service-kit parts list.
- OP This part is not included in a standard machine. The part can be specially ordered as an optional one.
- US Undersize part.
- OS Oversize part. STD Standard part.

Auf Grund einer ständigen Forschung und Entwicklung kann ein Teil der Verfahren, der Spezifikation und der Teile geändert werden. Eine regelmäßige Revision kann zu dieser Ausgabe gemacht und automatisch den Vertreibern zugestellt werden.

Es empfiehlt sich den Kunden, mit ihren Vertreiber oder Verteiler Kontakt aufzunehmen, um Information über die neueste Revision einzuholen. Die befriedigende Bestellung und der befriedigende Empfang von Teilen hängt größtenteils von der entsprechenden Benutzung von erhältlichen Informationen ab. Um Fehler in der Bestellung zu vermeiden, ist folgendes Verfahren zu befolgen:

- 1. Teil-Nr., Name des Prospektes und Menge der erforderlichen Teile angeben.
- Modell-Nr. angeben. Das Seriennummerschild des Chassis befindet sich an der Motorhaube oder am Instrumentenbrett nahe dem F
  ührersitz.
- Bei der Bestellung von Teilen f
  ür den Motor sind unbedingt die Seriennummer solcher Teile anzugeben.
- Neben jeweiligen Lieferungsanweisungen sind der gew
  ünschte Bestimmungsort und die gew
  ünschte Art der Verschiffung anzugeben.

Zur vollkommener Verständigung ist das Teilebuch wie folgt geschrieben:

Bildnummern sind nicht in Zahlenfolge in beiden ABSCHNITTEN.	voneinander unabhängig vorgesehen.	Zeichen (.) gekennzeichnet, das seinem Namen hinzugefügt steht,	Wenn ein Teil mit ( . ) ein Komponent ist, hat er () vor seiner	(ty) "Q'ty" gibt die Anzahl der erforderlichen Teile pro Maschine an.

Debido al programa continuo de investigación y desarrollo, algunos de procedimientos, especificaciones y piezas pueden modificarse en un esfuerzo constante de mejorar las máquinas. Modificaciones periódicas pueden presentarse a esta publicación y enviarse por correo espontáneamente a los distribuidores.

Por lo tanto, se recomienda que los usuarios se ponga en contacto con su distribuidor o concesionarios para que se puedan obtener informaciones acerca de las últimas modificaciones.

El pedido y recepción satisfactoria de las piezas de recambio con buenos resultados dependen mucho de la manera adecuada de manejo de las informaciones disponibles. A fin de evitar confusiones en hacer un pedido, se aconseja que proceda de la siguiente manera:

- 1. Indique el número de referencia, título del catálogo y cantidad de las piezas requeridas.
- Indique el número del modelo. La placa de identidad que muestra el número de serie del chasis se encuentra montada en el capó o en el tablero de instrumentos cerca del asiento del conductor.
- Al hacer un pedido de piezas del motor, sin falta indique el número de serie y el del modelo de cada unidad.
- Indique la destinación y el método de despacho deseado junto con todas las otras instrucciones especiales para facturación.

Este manual de partes está redactado a base del siguiente principio con que el lector deba familiarizarse.

Fig. No.

Los números de figuras no se asignan en todas secciones de este manual en orden numérico. La asignación de los números de figura a los diseños de las dos SECCIONES se realiza no teniendo nada que ver una con otra. Por lo tanto, los mismos números de figura pueden aparecer en las dos SECCIONES.

Todas las piezas componentes de un conjunto llevan un pequeño puntito (.) prefijado a la designación de la misma, y están enumeradas en la línea debajo de la designación del conjunto. En caso de que una pieza que lleva un puntito tiene en su vez algunas piezas componente de la misma, todas tales sub-componentes llevarán dos puntidos (..) prefijados a la designación. Cada mención de "Cantidad" indica la cantidad de piezas necesaria para cada máquina. En el caso de una pieza componente de algún conjunto, esta rúbrica indicará la cantidad de piezas requeridas por conjunto.

Esto indica el número de serie del modelo de la máquina en que la pieza correspondiente está empleada. Las siguientes letras representan los modolos del motor o de la máquina.

Códigos usados

Esta pieza es contenida en un equipo o un kit. Sírvase hacer referencia Esta pieza no está incluída en una máquina estándard. No. de serie

Devido à continuidade de pesquisas e desenvolvimento, pode haver alteração em alguns procedimentos, especificações e peças. Esta publicação deve ser periodicamente revisada e enviada automaticamente para os distribuídores.

Recomenda-se que os clientes entrem em contato com seu distribuidor para receber informações sobre as últimas revisões.

A encomenda e o recebimento satisfatórios de peças dependem grandemente da utilização apropriada das informações que se possui. Para evitar enganos ao encomendar novas peças, favor observar os seguintes itens: 1. Mencionar o número da peça, a denominação do catálogo e a quantidade de peças necesárias.

- Indicar o número do modelo. A placa do número de série do chassis encontra-se no cofre do motor ou sobre o painel de instrumentos cerca do assento do operador.
- Ao encomendar peças para o motor, assegurar-se de indicar o número de série de cada unidade.
- Mencionar o destino desejado e o método de transporte juntamente com quaisquer instruções especiais para a fatura.

Para melhor entendimento o livro de peças contém descrições assim como a seguinte:

No Fig. Descrição Qtde.	<ul> <li>No Fig.</li> <li>Os números da figuras não estão em ordem numérica em ambas as seções pois as ilustrações das seções são compiladas independentemente.</li> <li>Descrição</li> <li>Quaisquer peças ou componentes de montagem possuem a marca (.) fixada a sua denominação e são listadas abaixo da denominação do conjunto. Quando uma peça com marca (.) é uma peça componente, esta possui uma marca () pré-fixada à denominação da peça.</li> <li>Qtde.</li> <li>"Qtde" significa a quantidade de peças iguais requeridas por máquina.</li> </ul>
	No caso de ser uma peça componente, isto indica a quantidade de
	peças iguais requeridas por conjunto ou unidade.

No Série significa o número de série do motor ou da máquina.

No Série

Códigos e letras usados nas colunas de Denominação das Peças e Número das Peças são os seguintes: Uma peça que está indicada na linha acima e não possui uma marca
